

# BELT SANDERS

## RRG-36210 / 36213 / 36220

ENHANCING PERFORMANCE ON ALL FRONTS

The latest Red Rooster belt sanders are engineered for precise deburring in narrow and confined spaces. They are suitable for use on steel, aluminium, plastics and wood. These updated models offer more power, reduced noise, and improved ergonomics. Repositioning sanding belts is easier than ever, and the sanding arm now rotates smoothly through 360 degrees. For 20 mm belts the sanding shoe can be removed to allow sanding of convex surfaces with ease.

### CHARACTERISTICS

- Ergonomic design, well balanced
- Exhaust silenced
- Arm adjustable in 360 degrees by quick release bar
- Integrated speed regulator
- Self-locking design for easy change of sanding belt

Type	Belt size mm	RPM	Power kW	Air cons. l/s	Weight kg	Airconnection	Hose diameter mm
RRG-36210	10x330	20.000	0,45	8,7	0,75	PT 1/4"	10
RRG-36213	13x330	20.000	0,45	8,7	0,75	PT 1/4"	10
RRG-36220 *	20x520	18.000	0,52	9	1,4	PT 1/4"	10

\* Including removable shoe for sanding curved surface.
